> “CVC delivered another strong quarter and is well positioned for continued growth. Fee-paying AUM increased by 24% year-on-year to €177bn, and our Credit, Secondaries and Infrastructure platforms now make up 60% of the total. Fundraising momentum is broad-based across strategies and client channels, from the $10bn final close of SOF VI to the continued rapid scaling of Private Wealth and our new partnership with Standard Life. We are realising investments at record levels, which gives us high confidence in our target of €26bn FPAUM or more for Europe / Americas Fund X.
